Digital membership cards from California State PTA

Dear PTA Presidents and Membership Officers,

California State PTA in partnership with your District PTA is now offering the option to distribute digital membership cards to your members instead of paper cards. For the 2015-16 membership year, units can either distribute the paper membership cards, the new "e-cards" or a combination of the two.

Your members can save the image of their personalized e-card to their smartphone or tablet device and carry it with them, just as they would a traditional paper card. The digital cards do not need to be printed, which may save your unit time and expense. Remittance of dues follows the same process for both paper and e-cards, and the same rules apply. **One card = one vote = one membership.**

To request e-cards for your unit, please complete the survey at the link below:

<https://www.surveymonkey.com/r/2015-16ECard>

Templates and complete instructions to personalize and distribute the cards will then be mailed to you along with contact information for technical support should you have any questions along the way.

If you have any questions, please contact Brian Bonner, Vice President for Membership, at membership@capta.org.

This message is being sent to PTA unit and council presidents and membership officers in select districts.
